

SECTION 7

COMMERCIAL MASTER DEMONSTRATION

SECTION 7

COMMERCIAL MASTER DEMONSTRATION

This permit is furnished upon application by the dealer to the department and the payment of a fee of fifty dollars. The master permit allows a dealer to issue single trip permits to customers wishing to use a vehicle, for the purpose of demonstration and potential sale of vehicle, which by its nature is required to have commercial fees. The driver must be in possession of an individual trip permit plainly describing the vehicle, specifying the route to be traveled from starting point to destination, approximate time of departure, approximate time of arrival at destination, the merchandise being transported, the name of the company or individual for whom the demonstration is being made and the name of the holder of the master permit.

Individual permits are sold to dealers in books of ten at a cost of \$150 (\$15 per permit).

The department may withdraw a master demonstration commercial license permit for any violation of the provisions of the dealer licensing statutes.

The master permit held by the dealer expires on the thirtieth day of June each year.
